

Tatyana A. Vasilyeva
Curriculum Vitae

Personal and contact information:

Tatyana A. Vasilyeva,
Scientific Associate,
Laboratory of Genetic Epidemiology,
Research Centre for Medical Genetics,
Moskvorechie St., 1, 115522, Moscow,
Russian Federation,
Tel.: +7 (499)320-60-90

Education and qualifications:

M. Sc received from Lomonosov Moscow State University in 1985,
Ph.D. received from Research Centre for Medical Genetics in 2018 (under the supervision of Dr. Andrey V. Marakhonov).
Scientific interests include medical genetics, molecular diagnosis, molecular pathogenesis of hereditary diseases, and population genetics.
Tatyana A. Vasilyeva has an extensive experience in molecular diagnosis of number of hereditary diseases including BOFS, cystic fibrosis, neurofibromatosis type 2, eye anterior segment dysgeneses, as well as in molecular genetic studying of the cohorts of patients with these hereditary pathologies, and studying of populations divergence in neutral markers and pathological alleles frequencies in different ethnic groups of Russia.
